

Multiple System Operators (MSOs)

North America's largest MSOs trust Cologix to support their critical network infrastructure. MSOs leverage Cologix's unique geographic footprint to establish peering nodes closer to their subscribers and eyeballs for peak performance and optimized network costs at the edge. Cologix's highly reliable and efficient facilities within or linked to carrier hotels enables MSOs to establish core nodes on national backbones, while also utilizing the facilities to fulfill carrier solutions for enterprise-focused divisions.

COLOGIX BENEFITS

- Peer directly to a broad set of "Mega Content" providers, CDNs & other MSOs
- Compete immediately for demand from existing colocation customers for Ethernet, VPN & fixed line services
- Use Cologix facilities (resale or referral) to meet the needs of more sophisticated customers that require colocation options within network solutions
- Move to IP aggregation & distribution via centrally located data centers to aggregate traffic onto the backbone at the edge
- High competition & low switching costs for underlying transport or fiber services
- Connect directly to independent, member-run Internet exchanges

TRUSTED BY 8 OF THE TOP 10 MSOs IN THE U.S. & ALL 4 TOP MSOs IN CANADA, INCLUDING:

"It is refreshing to work with Cologix who is truly committed to being **easy to work with** and who provides **direct access to local customer support** team who continuously **exceed our delivery expectations.**"

– Nicole Cimino, Senior Director, Enterprise Telecom & Financial Operations, DirecTV

"Our relationship with Cologix enables us to deploy **significant new IP infrastructure** to shift IP peering hand-offs from Chicago to Minneapolis. This shift is important because it **allows for peering closer to our large Internet customer locations** in Minnesota and Wisconsin, reducing the risk of network traffic concentration in Chicago. We have already **established direct connections to several of our key peers** and are in active discussions with others."

– Tim Beatrice, Peering Coordinator, Charter

24 Network Neutral Data Centers Throughout North America

Columbus - Dallas - Jacksonville - Lakeland - Minneapolis - Montreal - New Jersey - Toronto - Vancouver
