

Title: Systems Engineer

Location: Parsippany, NJ

About our Company:

Cologix provides network and cloud neutral interconnection and colocation services in highly strategic and densely connected data centers. We enable customers to scale their businesses rapidly and cost-effectively by delivering flexible space, reliable power, and dense cloud and network connectivity to customers in the carrier, cloud, content delivery, media, financial services and enterprise communities. Our customers have direct access to our local operations teams which result in strong partnerships backed by exceptional operational support and unparalleled customer service. With 25 Data centers in the United States and Canada, Cologix offers space, power, cooling, cross-connects and physical security for its customers. We are headquartered in Denver, Colorado and have data centers in Columbus (3), Dallas (2), Jacksonville (2), Lakeland (1), Minneapolis (3), Montreal (7), New Jersey (3), Toronto (2), and Vancouver (2) where we provide local dedicated support teams for our colocation and interconnection customers. Our company is backed by one of the largest North American Infrastructure funds and we have huge growth ambitions.

About the Position:

As a Systems Engineer with Cologix you will be responsible for virtualization within an MS Windows Environment. You will be a critical part of our Technology team and aid in building our internal operating environment as well as supporting our customers.

What makes you a good fit: (Qualifications)

- 8+ years of experience designing, implementing, administering a variety of server, storage and virtualization platforms
- Experience working for a MSP
- Ability to multitask and switch between project work and responding to customer's requests
- Advanced knowledge of Microsoft Operating Systems 2003/2008/2012 Server OS including installation, configuration, patching, upgrading, performance monitoring, and troubleshooting Advanced knowledge of Active Directory with Group Policies, DNS, DHCP and DFS
- Advanced knowledge of Linux / Unix OS
- Strong automation/scripting skills

- Expert level knowledge of VMware vSphere, Horizon View and vCloud Director. Familiarity with other virtualization/VDI platforms (KVM, Hyper-V, Citrix XenServer)
- Experience designing and managing Storage Area Network and Hyper-Converged Solutions (EMC, Dell, NetApp, Hitachi, Pure Storage, Simplivity, Nutanix, and etc.)
- Experience with migrations to public clouds (AWS, Azure, GCP)
- Knowledge of MS Exchange 2007-2016 and migrations to O365
- Strong verbal and written communication skills
- Ability to provide superior customer service and maintain cooperative working relationships with peers.

NOTE: This job description is not intended to be all-inclusive. Employee may perform other related duties as negotiated to meet the ongoing needs of the organization.

Cologix is an Equal Opportunity Employer. Qualified applicants are considered for employment without regard to age, race, color, religion, sex, national origin, sexual orientation, disability, or veteran status.
