COLOGIX WELCOMES WOLFE TO ITS DALLAS INFOMART MEET-ME-ROOM

Wolfe Adds Point of Presence in Cologix's DAL 2 Data Center To Expand Blended Bandwidth Networks Services

DENVER – October 15, 2014 – Cologix, a network-neutral interconnection and data center company, announced today that Wolfe, a high performance ethernet and network solutions provider, has deployed a Point of Presence (PoP) in Cologix's DAL 2 data center at the Dallas INFOMART in order to provide their 10 mg to 100 gig bandwidth services in the Dallas area.

The Wolfe deployment marks the first PoP in Dallas for the Seattle-based company in support of their expanding customer base across the United States. Wolfe provides companies across the United States high performance, innovative fiber-based Ethernet and internet solutions to help meet business connectivity needs including Ethernet Transport Service, Metro E, VPLS, IPVPN and Wolfe Business Internet.

"We are committed to offering our customers customized, flexible solutions to suit their needs in markets where they need them. When our customers identified Dallas-Fort Worth as a necessary market to deploy to, it was an easy choice," stated Mike Scott, General Manager, Wolfe Internet. "We saw a true partner in Cologix as they offered us a unique, stable infrastructure environment, enabled easy on-ramp to a diverse set of customers, and outstanding local support. We look forward to continuing to grow with them in this robust market."

Cologix provides network neutral interconnection and colocation services from their 40,000 SQF footprint encompassing two data centers in the 1950 North Stemmons Freeway building in Dallas, the fourth largest metro market in the US and host to twenty Fortune 500 company headquarters. Cologix Dallas customers have the unique ability to directly interconnect with existing customers and 25+ networks in Cologix's existing MMR as well as accessing other tenants in the INFOMART.

"We continue to see new networks like Wolfe recognizing the importance of the Dallas market as a primary interconnection point," stated Rob DeVita, General Manager, Cologix Dallas. "We are very pleased to be providing the infrastructure for the impressive set of blended bandwidth and Ethernet services that Wolfe provides and we look forward to enabling easy access to our customers and the broader Dallas market."

About Cologix Inc.

Cologix Inc. is a network-neutral interconnection and colocation data center company headquartered in Denver.
