

Cologix Supports Peering Exchanges

450+ Networks

24 Network Neutral Data Centers

1,600+ Customers

Cologix customers can access growing independent Internet Exchanges in Columbus, Dallas, Minneapolis, Montreal, Toronto & Vancouver to supplement bilateral peering relationships.

A robust internet exchange is an important ingredient to a vibrant and mature telecommunication market. Cologix has long believed that independent, open, member-run organizations provide the best model to build and sustain healthy exchange and is proud of its partnership with leading role models in the space. Cologix hosts these organizations within our data centers and provides our customers direct access to them via our Meet-Me-Rooms.
