Relentless Infrastructure & Redundancy with Unsurpassed Power

Cologix owns and operates a network neutral, hurricane-rated building in Jacksonville, housing the leading enterprise grade data center and disaster recovery facility in Jacksonville. The Jacksonville facility is unsurpassed in space, power and network services with redundancy as the key feature. The power, network and security are all redundant with automatic backup systems to ensure maximum uptime.

Top Connectivity in Jacksonville

Cologix is your network neutral partner, providing customers with direct, fast interconnection to 8+ unique networks in the company's onsite Meet-Me-Room (MMR). In addition, the site offers dark fiber connectivity to JAX1 with access to 40+ networks and fiber routes to the Caribbean, Central & South America carriers. In addition, Cologix brings the benefits of robust carrier and cloud provider choice to the enterprise environment offering enterprise-grade redundancy and scalability advantages.

Why Cologix Jacksonville?

Cologix Jacksonville offers robust connectivity to Northeast Florida's largest concentration of internet and telecommunications companies in the city's central business district with access to submarine cables and direct fiber to Central & South America. The facility offers customers an express route to South America without traversing through Miami, reducing costs, latency and risk. Customers find the data center's infrastructure, reliability, connectivity, and redundancies best-in-class and appreciate the ease of doing business with Cologix.
