

ONECLOUD NETWORKS SELECTS COLOGIX'S DALLAS INFOMART DATA CENTER TO SUPPORT COMMUNICATION SERVICES

OneCloud to leverage Cologix's data center to access dense INFOMART Carrier community

Denver, Colorado – June 18, 2013 – [Cologix™](#), a [network neutral interconnection](#) and [colocation](#) company, today announced that [OneCloud Networks](#), a Managed Solutions provider, has chosen Cologix's Dallas INFOMART data center to support their rapidly growing business.

OneCloud Networks delivers reliable and cost-effective Cloud-based Unified Communications Services to growing enterprises. Its comprehensive set of solutions is delivered over intelligent and high performance managed network. "OneCloud Networks provides a full range of cloud-based UC solutions, including latency sensitive applications, which require direct connectivity to a broad choice of carriers," stated Haider Mirjat, Chief Solutions Officer, OneCloud Networks. "Cologix's Dallas INFOMART data center meets these requirements and provides state-of-the-art, scalable infrastructure to address our growth needs."

"We are pleased that OneCloud Networks has chosen our new INFOMART data center to deploy their fully redundant and managed network," stated Rob DeVita, General Manager, Cologix Dallas. "We look forward to supporting their connectivity and growth demands and introducing their services to our growing list of enterprise customers."

With data centers in Dallas, Minneapolis, Montreal, Toronto and Vancouver, Cologix provides one of North America's largest neutral marketplaces where network operators and network buyers interconnect. Cologix offers more than 330 network choices, manages thousands of interconnections and has over 550 customers that utilize Cologix's colocation and interconnection services to scale their networks' needs rapidly and cost-effectively.
