Cologix's Enterprise Jacksonville Data Center
JAX 2: 4800 Spring Park Road

Cologix owns and operates a network neutral, hurricane rated building in Jacksonville, housing the leading enterprise grade data center and disaster recovery facility in Jacksonville. The site offers the fastest network route solutions available with 8+ carriers in addition to dark fiber connectivity to the Meet-Me-Room at 421 W. Church St. Jacksonville has a vibrant local economy and its most revered brands rely on Cologix to support their data center needs. Jacksonville is also gaining importance globally with multiple subsea cables landing in Jacksonville directly from Central and South America.

Jacksonville's Leading Enterprise Provider – Relentless Infrastructure
The Jacksonville facility is unsurpassed in space, power and network services, with the data center's key feature being redundancy. The power, network and security are all redundant with automatic backup systems to ensure maximum uptime.

The Top Connectivity Provider in Jacksonville
Cologix is your network neutral partner, providing customers with buying power and direct interconnection to 8+ unique networks in the company's on-site Meet-Me-Room (MMR) on top of access to the providers available at the JAX 1 data center via a dark fiber ring. In addition, Cologix brings the benefits of robust carrier and cloud provider choice to the enterprise environment offering unique cost, redundancy and scalability advantages.

24/7 Security
Cologix Jacksonville clients rest assured with badge and biometric checkpoints on all entrances and mission-critical areas, 24/7 manned security, turnstile mantraps and closed-circuit TV (CCTV). Additionally, the data center is SSAE 16 SOC 1 Type 2 audited with support to gain PCI compliance on an individual basis.

Dynamic Customer Support
All customers have direct and 24/7 access to geographically redundant live support, in addition to a web-based portal for online technical support ticket submissions. Local Cologix technicians also leverage the Cologix Command data center infrastructure management (DCIM) platform to continually monitor service to ensure business continuity, alerting customers with options when nearing capacity.
