

## **COLOGIX LAUNCHES CHANNEL PARTNER PROGRAM**

*Program to support Master Agents, Real Estate Brokers and Referrals*

**Denver, Colorado – March 27, 2012** – [Cologix™](#), a [network neutral interconnection](#) and [colocation](#) company, announced today that they have launched a new Channel Partner program to form strategic partnerships with companies that augment and complement Cologix’s platform reach. The new program will offer master agents and real estate brokers access to solutions for customers in need of network neutral colocation in strategic markets throughout North America.

“We value our existing agents and look forward to building new relationships starting this week at the Channel Partners show in Las Vegas,” said Todd Coleman, Chief Operating Officer, Cologix. “Our network neutral platform offers reliable and scalable colocation solutions that enable our customers to realize cost savings through network choice, a proposition which we believe will be compelling to our partners.”

Partners in the Agent or Referral programs will have access to Cologix’s platform, one of North America’s largest neutral marketplaces where network operators and network buyers interconnect. With data centers in Dallas, Montreal, Toronto and Vancouver, Cologix offers over 200 network choices, manages thousands of interconnections and has over 400 customers that utilize Cologix colocation and interconnection services to scale their networks needs rapidly and cost-effectively.

“We are excited to be a part of Cologix’s Channel Partner program as it enables CSG to offer our customers access to Cologix’s robust, network neutral platform,” said Dale Stewart, President, CSG Affiliates LLC. “We continue to see increased demand for data center solutions and we look forward to adding Cologix to our channel portfolio.”

### **About Cologix, Inc.**

Cologix, Inc. is a network neutral interconnection and colocation company headquartered in Denver, Colorado, that provides massively scalable interconnection services and secure, reliable colocation services in densely connected, strategically located facilities.
