

COLOGIX UPGRADES NEUTRAL CLOUD CONNECT PLATFORM

*Robust ecosystem now offers a one-connection solution
from any Cologix market to broadest range of MSP, CSP, and Public Cloud Hyperscalers*

DENVER, CO – April 24, 2018 – [Cologix™](#) a [network and cloud neutral interconnection](#) and [data center](#) company announced Cloud Connect, a network solution that provides a streamlined source for enterprises to now access every cloud service provider on its platform with a simple connection from any of their data centers. The solution enables extended reach into every Cologix market and a more robust, secure and efficient way to satisfy customers' current needs, while retaining adaptability to the ever-changing technology landscape.

Cologix Cloud Connect provides differentiated choice for enabling and future-proofing IT hybrid and multi-Cloud strategies with unparalleled vendor choice resulting in an extension of the reach and benefits offered to Enterprises. Cologix offers more connectivity choices for dedicated access to public cloud services like [Amazon Web Services](#), [Microsoft Azure](#), [Google Cloud Platform](#) and [IBM Cloud](#) than any competitor across its platform. Additionally Cologix customers can connect to more than 250 cloud service providers, operating nodes within Cologix data centers, to augment their own internal IT environment.

We continue to see high demand from Enterprises needing extended reach," stated Val Milshtein, Chief Information Officer & Senior Vice President, Network Services, Cologix. "We provide the most robust ecosystem of Cloud and Network providers in the markets we serve and as a result enable extended reach, reduced latency, lower costs and the freedom of choice for future growth as technologies and the market mature."

The key benefits of Cologix's Cloud Connect solution include:

- **Ease of Connectivity:** Connecting to the robust Cologix Cloud Ecosystem requires a simple cross connect within any of our data centers.
- **Reach:** Cologix operates 25 neutral data centers across our 9 North American markets including: Columbus, Dallas, Jacksonville, Lakeland, Minneapolis, Montreal, Northern New Jersey, Toronto and Vancouver.
- **Choice:** More than 250 cloud service providers have already deployed nodes within Cologix's Meet-Me-Rooms to make their services available to a new set of customers in our unique markets.
- **Access to Hyperscalers:** Cologix enables connectivity to Amazon Web Services, Microsoft Azure, Google Cloud Platform and IBM Cloud from any of our data centers.
- **Performance & Reduced Total Cost of Ownership:** Connecting directly through Cologix Cloud Connect results in reduced long haul transport costs, lower latency, higher performance and closer access to end users.
