FLEXIBLE SOLUTIONS TO MEET
YOUR INFRASTRUCTURE NEEDS.

FLEX Servers
Dedicated Hosted Servers rapidly deployed in Cologix Data Centers, available as fully managed hosted servers or as bare metal servers with customized operating system deployments via IPMI (Intelligent Platform Management Interface).

FLEX Security
Secure your infrastructure investment with Managed Firewalls, Managed DDoS Mitigation and Advanced Intrusion Prevention. These services allow you to know what is happening in your environment on a minute-to-minute basis with network monitoring and analytics.

FLEX VServer
Managed Virtual Machine, Managed Cloud servers built and deployed within Cologix Data Centers on our highly redundant infrastructure for Internet facing and private applications.

FLEX Storage
Our managed storage service is available to use across your entire organization or as a complement to Cologix Managed Hosting Services. From simple NFS shares to high availability, high performance SAN (Storage Area Networks) iSCSI solutions.

FLEX VirtualDC
Managed Virtual Data Center private cloud environment, with dedicated allocated resources enabling you to design, build and deploy virtual machines on-demand, and slice up resources as needed for day-to-day operations.

FLEX Backup
Our managed backup service can be deployed as a complement to your existing on-site office infrastructure, your existing infrastructure within our data center or combined with any of our other Managed Services, providing increased peace of mind against data loss. Available on both dedicated and shared infrastructure combinations.
