

## FLEX Security

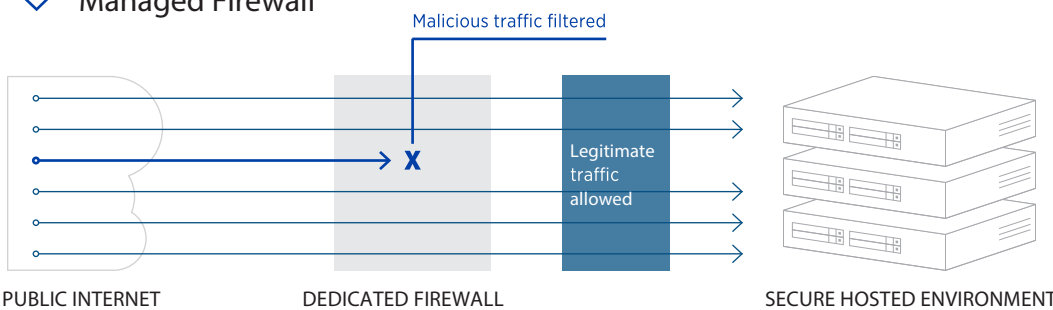

PROACTIVE MANAGED SECURITY SOLUTIONS TO PROTECT YOUR INFRASTRUCTURE TODAY AND IN THE FUTURE.

Let's face it, keeping your infrastructure and applications secure is a daunting task. Cyber threats are increasing in size, intensity and frequency, and can do serious damage to your business. The type and complexity of these attacks, and the related security technologies, are evolving faster than you can keep up. Cologix FLEXSecurity solutions help Enterprises protect and secure their infrastructure investment from a wide range of potential online threats. Using the latest DDoS (Distributed Denial of Service) and managed firewall technology, FLEXSecurity helps safeguard your data by keeping malicious viruses and attacks from ever reaching your infrastructure. Our team of security experts track evolving threats and provide up-to-date defenses so you can focus on your core business.

### FLEXSecurity Highlights

- 100% Uptime SLA
- 24x7 Proactive Monitoring, Support and Maintenance
- High Performance Hardware
- Monthly rental; no CAPEX Requirements
- Full Managed by Cologix's Expert Technical Staff
- Continually Updated to Protect Against Latest Threats
- Detailed Analytic Reporting
- Full Integration with other FLEXServices

### FLEX Security Managed Firewall

FLEXSecurity Managed Firewall adds a solid layer of protection between your mission-critical information and malicious attempts to access it.

**FLEXSecurity** Managed Firewall provides customers with multiple levels of intrusion detection and prevention security, protecting your infrastructure from threats like hackers, malware and cyber thieves. All inbound data traffic flows to a firewall(s), filtering traffic based on your specified requirements. Unwanted traffic is blocked and eliminated.

**MANAGED** We handle the setup, testing, upgrades, patches, and ongoing maintenance of the physical hardware, and ensure that all security policies and configurations are always current.

**DEDICATED** The Firewall is specific to your infrastructure and is not shared by others, so there are no security compromises.

**MULTI-LAYERED DEFENSE** Entry level border intrusion prevention, deep packet inspection intrusion detection, and advanced screening and filtering for URL, Web, Email, SPAM Viruses

**ACCESSIBLE** Connected to the Internet and/or your environment within the data center. VPN availability for Remote Access.

**FLEXIBLE** Variable sizes and redundant configurations available

## FLEX Security Managed DDoS Mitigation

FLEX Security Managed DDoS Mitigation service analyzes, detects and addresses advanced threats to ensure service availability and improve network performance

DDoS attacks attempt to paralyze your systems, devices and network by overwhelming them with bogus traffic. FLEX Security Managed DDoS Mitigation service protects against volume-based and stealth-based DDoS attacks by actively monitoring and analyzing the flow of traffic to your infrastructure, and isolating any malicious traffic to prevent it from impacting performance.

**PROACTIVE** Always-on, always monitoring to catch high-volume flood attacks as soon as they begin

**VISIBLE** Secure web portal to view statistics and reports on security events and traffic patterns

**MANAGED** Set up, maintained and monitored 24x7 by the Cologix team of security experts equipped to handle the latest in DDoS attack strategies and techniques

**EFFICIENT** Housed in our data centers, so there's no hardware or software required within your environment, thereby reducing your overall dedicated infrastructure costs.

**FLEXIBLE** Able to handle large-volume DDoS attacks of up to 15Gps

## HYBRID BY DESIGN

Our hybrid platform allows you to create the best infrastructure to meet your specific needs

## ABOUT COLOGIX

Cologix provides reliable, secure, scalable data center and interconnection solutions from 24 prime interconnection locations across 9 strategic North American edge markets. Over 1,600 leading network, managed services, cloud, media, content, financial services and enterprise customers trust Cologix to support their business critical infrastructure and connect them to customers, vendors and partners. Our dedicated, experienced local teams and scalable solutions enable us to provide industry-leading customer service and the ability to successfully support customers at the Internet's new edge.
