

Title: ISMS Manager

Location: Denver, CO

About our Company:

Cologix provides network and cloud neutral interconnection and colocation services in highly strategic and densely connected data centers. We enable customers to scale their businesses rapidly and cost-effectively by delivering flexible space, reliable power, and dense cloud and network connectivity to customers in the carrier, cloud, content delivery, media, financial services and enterprise communities. Our customers have direct access to our local operations teams which result in strong partnerships backed by exceptional operational support and unparalleled customer service. With 29 Data centers in the United States and Canada, Cologix offers space, power, cooling, cross-connects and physical security for its customers. We are headquartered in Denver, Colorado and have data centers in Columbus (3), Dallas (2), Jacksonville (2), Lakeland (1), Minneapolis (3), Montreal (10), New Jersey (3), Toronto (2), and Vancouver (3) where we provide local dedicated support teams for our colocation and interconnection customers. Our company is backed by one of the largest North American Infrastructure funds and we have huge growth ambitions.

About the Position:

The primary responsibilities of this position are focused on ensuring all departments meet International, Federal, State and Local compliance requirements with which management has determined Cologix should comply. This includes providing direction and procedures to work groups to ensure that all departments satisfy annual audit criteria for existing compliance certifications which includes but is not limited to; SOC1, SOC2, PCI-DSS, HIPAA, and ISO 27001. Perform internal audits to ensure compliance. Work with external auditors to provide requested information and ensure audit success.

What you do daily:

- Directs programs, policies, and practices to ensure that all business units are in compliance with financial, legal, human resources, security and operational policy and reporting regulations.
- Tracks laws, regulations and compliance standards that might affect the organization's policies and implements necessary changes as required.

- Develops organizational compliance strategies by contributing information, analysis, and recommendations to strategic thinking and direction of corporate objectives.
- Implementation, operation and maintenance of the Information Security Management System based on the ISO 27001 standards, including certification.
- Performs information security risk assessments and assess the control environment of the business processes and applications under review, including both manual and automated processes in accordance with the information security program.
- Develop remediation and corrective action plans with related governance and operational functions of the ISMS (as it relates to IT, Operations, Risk Management, Human Resources, Legal and Compliance) working with senior and middle managers throughout the organization as necessary.
- Supports new Customer RFPs (Request For Proposal) as the Information Security SME and facilitates responses to customer requests for compliance information and/or compliance audits.

What makes you a good fit: (Qualifications)

- 5 years ISMS experience preferred as it applies to telecommunications data centers and colocation services.
- Demonstrated expertise in a variety of the IT field's concepts, practices, and procedures.

NOTE: This job description is not intended to be all-inclusive. Employee may perform other related duties as negotiated to meet the ongoing needs of the organization.

Cologix is an Equal Opportunity Employer. Qualified applicants are considered for employment without regard to age, race, color, religion, sex, national origin, sexual orientation, disability, or veteran status.
